

## Q3 2023 Revenue Report

In Q3 2023, the company achieved a record-breaking revenue of 120 million. This represents a 15% increase compared to Q2. The primary driver of this growth was the enterprise software division, which contributed 75 million. Cost of goods sold (COGS) remained steady at 40 million. Looking ahead to Q4, we project a revenue target of 130 million.
